**CITY OF BROOKS**

**BYLAW NO. 15/17**

**A BYLAW OF THE CITY OF BROOKS IN THE PROVINCE OF ALBERTA TO  
AMEND BYLAW NO. 14/12 BEING THE LAND USE BYLAW.**

**WHEREAS** it is desirable to amend Bylaw No. 14/12 being the Land Use Bylaw to regulate the width of driveways on private property in all land use districts contained within the Land Use Bylaw.

**AND WHEREAS** it is desirable to amend Bylaw No. 14/12 being the Land Use Bylaw to include a new sub-section in Section 17: Parking and Loading of Schedule 3: General Standards of Development, to regulate driveways in residential land use districts by allowing a maximum driveway width of fifty (50) percent of the width of a lot, with the width of the lot being measured 7.5 m (24.6 ft) back from the front property line, in keeping with the definition of lot width provided in Schedule 6: Definitions of the Land Use Bylaw.

**AND WHEREAS** it is desirable to amend Bylaw No. 14/12 being the Land Use Bylaw to include an exemption from the regulation for pie-shaped lots, which are typically found fronting a cul-de-sac or on the corners of a crescent.

**AND WHEREAS** it is desirable to amend Bylaw No. 14/12 being the Land Use Bylaw to regulate the width of driveways in all other land use districts by allowing a maximum driveway width to be determined at the discretion of the Development Authority, with consideration for the context of a parcel of land and the associated development that requires a driveway, potential impact to adjacent and neighbouring parcels of land, and the public rights-of-way that a driveway may be directly accessed from.

**AND WHEREAS** it is desirable to amend Bylaw No. 14/12 being the Land Use Bylaw to include the term *Driveway* and the term *Lot, Pie-shaped* in Schedule 6: Definitions of the Land Use Bylaw and to define the term *Driveway* as follows:

*Driveway means a paved or unpaved strip of land located on private property that is used exclusively as a connector between public right-of-way and private land, for the purposes of accessing and providing parking space on private land, or for the purposes of accessing a garage structure or other enclosure located on private land, that is intended primarily for the parking of motorized or non-motorized vehicles.*

***Lot, Pie-shaped*** means a lot that is typically found fronting a cul-de-sac and that is narrower at the frontage of the lot than it is at the rear of the lot.

**AND WHEREAS** the purpose of the proposed amendment is to avoid potential negative impacts of driveways that are of a width that may be considered excessive, while specifically exempting pie-shaped lots due to the potential issues that may occur with trying to develop a driveway on a lot with relatively narrow frontage, and to define the term *driveway* and the term *lot, pie-shaped* to ensure clarity and ease of use of the Land Use Bylaw.

**AND WHEREAS** a Public Hearing, as required by Section 692 of the Municipal Government Act, will be held prior to second reading of this Bylaw.

**NOW THEREFORE**, the Council of the City of Brooks duly assembled, enacts as follows:

1. That Schedule 6: Definitions of Bylaw 14/12 being the Land Use Bylaw, be amended to include and define the term Driveway as follows:

***Driveway*** means a paved or unpaved strip of land located on private property that is used exclusively as a connector between public right-of-way and private land, for the purposes of accessing and providing parking space on private land, or for the purposes of accessing a garage structure or other enclosure located on private land, that is intended primarily for the parking of motorized or non-motorized vehicles.

***Lot, Pie-shaped*** means a lot that is typically found fronting a cul-de-sac or the corner of a crescent, and that is substantially narrower at the frontage of the lot than it is at the rear of the lot.

2. That Schedule 3: General Standards of Development, Section 17: Parking and Loading be amended to include the following:

#### 17.7 Driveways

- (1) Driveways in residential districts shall be a maximum of 50 percent of the width of the lot;
- (2) The width of the lot shall be measured 7.5 m (24.6 ft) back from the front property boundary for the purposes of 17.7(1);
- (3) Pie-shaped lots, which are typically found fronting onto culs-de-sac or the corners of crescents, are exempt from 17.7(1) and 17.7(2).

**Figure 17.7.1:** an illustration of where lot width is measured from in accordance with 17.7(2), and a pie-shaped lot in accordance with 17.7(3).

- (4) Driveways in all other land use districts shall be of a maximum width that is determined by the Development Authority, with consideration for the context of the land on which the driveway is located, and potential negative impacts to adjacent and neighbouring properties and the public rights-of-way from which the driveway is accessed.

4. That the aforementioned amendments to Bylaw 14/12, being the Land Use Bylaw, shall make use of formatting and numbering conventions that maintain the consistency of the portions of the bylaw being amended.

The dwelling is transported by transport trailer in sections and delivered to the site where it is assembled over a conventional, permanent concrete foundation (a basement foundation, slab-on-grad or crawl space) or other approved foundation.

Modular includes the following two subtypes: Panellized and Ready-to-Move (RTM), but does not include a MANUFACTURED, MOVED-IN, or SINGLE DETACHED DWELLING.

Panellized means a dwelling unit constructed at the site intended for occupancy using pre-built exterior/interior wall panels and building components that are delivered to the site as a package ready for assembly over a conventional, permanent concrete foundation (basement foundation, slab-on-grade, or crawl space) or other approved foundation.

intended for occupancy, but for various reasons, is constructed at an off-site manufacturing facility, construction site, plant site or building yard.
